

Tony Darko

3D Motion Designer · CGI Generalist

hello@tonydarko.work | Portfolio: tonydarko.work | Telegram: @tonydarko98

Remote Worldwide · English C1 · Russian B1 · Spanish Native

PROFILE

3D Motion Designer and CGI Generalist with 5+ years producing cinematic, stylized, and game-ready 3D across gaming, iGaming, Web3, metaverse, and brand media. Owns the full pipeline — concept, modeling, rigging, animation, lighting, rendering, and compositing. Integrates AI tools as a core part of production, cutting iteration time by ~35% without sacrificing quality. Shipped real work inside Decentraland, optimized avatar assets for web real-time delivery (GLB/WebXR), and built a Unity asset pipeline from scratch. Founded Michicanos MX — original low-poly animated IP — which reached 25M+ organic views in 4 months across TikTok and Instagram. 1st place winner of the Iberoamerican CryptoArt Contest (Avalanche blockchain, 2021). Speaker at NFT Barcelona 2023. Async-first, self-managed.

SKILLS

3D & Animation	Blender (Cycles · Eevee · Grease Pencil) · Unity · 3D Animation · Rigging · VFX
AI Workflow	Seedance 2.0 · Nano Banana · Stable Diffusion · Kling · ComfyUI · FLUX · Tripo AI
Real-time & Web	Unity (asset pipeline · scene setup · Recorder) · GLB/WebXR · Three.js · WebGL · GSAP
Texturing	Substance Painter · Substance Designer · PBR · Atlas baking · UV optimization
Post & Motion	After Effects · Premiere Pro · DaVinci Resolve · Compositing · Motion Graphics
Design	Figma · Illustrator · Photoshop · Brand Identity · UX/UI · Typography

EXPERIENCE

3D Motion Designer · Zack D Films & YouTube Channels (Zack D Films-style) 2025 – Present

· Remote · Worldwide

- Produced 3–5 short-form 3D animated pieces per week — hook-driven structure, brand-consistent, delivered at high volume.
- Full pipeline: brief → Blender 3D → AE compositing → multi-format export — same mechanics as mobile UA and game ad creative production.
- Integrated AI tools (Tripo Ai, Kling, NanoBanana) to accelerate asset generation and creative hypothesis testing without extending delivery time.

Creative Director & Lead Animator · Michicanos MX (Original IP) 2023 –

Present · Remote · Mexico

- Founded original low-poly animated IP blending Mexican culture with PS2-era aesthetics — 25M+ organic views in 4 months across TikTok and Instagram. Zero paid distribution.
- Built full batch production pipeline in Blender: storyboard → 3D animation → compositing → platform-optimized export, enabling consistent weekly publishing cadence.
- Launched UGC strategy — audience submissions converted into animated episodes, driving compounding community growth without paid acquisition.

3D Technical Consultant & Cinematic Artist · Union Avatars

2023 · Remote · Spain (Contract)

- Produced promotional cinematic for stylized 3D avatar product launch — full Blender pipeline from pre-viz to final composite.
- Reduced avatar package size by 60% through atlas baking, decreasing the polygon count, UV consolidation

and shader simplification while improving browser loading performance. • Consulted on WebXR avatar architecture: rendering pipeline, scalable deployment strategy, and browser performance optimization.

Technical Artist & Motion Designer · I2C/Decentraland — I+D Studio 2021 – 2023 ·

Remote · Spain (Contract)

- Built 3D asset pipeline for games and metaverse experiences — shipped work inside Decentraland including interactive environments and branded experiences.
- Developed and shipped open-source VTubing app: software architecture, Unity scene setup, 3D character pipeline, and real-time rendering optimization.
- Led brand identity, UX/UI systems, and 3D promotional video across simultaneous XR projects for gaming-adjacent clients.

3D Motion Designer & CGI Generalist · Freelance / Independent Studio 2022 –

Present · Remote · Mexico & International

- Delivered 7+ cinematic and stylized 3D productions for brand, gaming-adjacent, Web3, and digital media clients — full pipeline 0 to deliverable.
- Produced 3D+2D hybrid content: explainer videos, social ads, branded short-form — adapted to 9×16, 16×9, 1×1, and 4×5 formats.

TEACHING & COMMUNITY

Blender Instructor · NFTianguis · Decentraland · Adobe / Bitso / Government of México

2021 – 2023 · Online · LATAM

- 300+ students trained in Blender across 4 workshops — fundamentals through full 3D production projects, fully online across LATAM.
- Co-facilitated Decentraland wearables workshop: low-poly 3D assets, UV mapping, platform optimization, and on-chain deployment.
- 2 workshops for Talentum digital school sponsored by Adobe, Bitso, and the Government of México — production-focused, community-wide reach.

RECOGNITION

- 2021 1st Place — First Iberoamerican CryptoArt Contest — Avalanche (AVAX) Blockchain · Judge: Javier Arrez
- 2021 Speaker — Talent Land Home — "Democratization of Art Through Technology" · LATAM · Online
- 2021–22 Exhibition — Renaissance Protocol (Virtual Reality) — Vizmesh · New York, USA · Immersive digital art exhibition
- 2023 Speaker — NFT Barcelona — "Digital Identities" · Barcelona, Spain · International Web3 conference
- 2023 Exhibition — Mexican Embassy — Texas, USA · Animated work exhibited

EDUCATION

Bachelor's in Graphic Design · BUAP (Benemérita Universidad Autónoma de Puebla) · 2016–2021
